

February 14, 2007

Dear ECCL Member:

In order to more effectively communicate with the Board Members and Administrators of each residential community we are creating a new email database containing the names and email addresses of all Community Board members and administrators.

This list will be used to send each person on the list the following monthly communications:

- The Estero Development Report
- The Agenda for each ECCL meeting,
- The Minutes of each ECCL meeting, and
- Occasional public notices about programs that they might consider for the community.

Please send me a copy of such a list for your community as soon as possible so that we can begin to use it starting the 1st of March. Thanks for your help.

Sincerely,

Don Eslick

Also please see the attached announcement of this weekends "Arts in Estero 2007" event at Coconut Point.
