

ECCL's *Estero Community Improvement Foundation* Takes on First Project to Landscape Estero High School

Before

After

The Estero Council of Community Leaders' Community Improvement Foundation has taken on the project to landscape the perimeter of Estero High School along Williams and River Ranch Roads.

At an estimated \$130,000, this is a major project - the greatest privately funded civic undertaking of its kind ever attempted in southwest Florida.

Yet, the residents and businesses in our remarkable village have continually displayed an outstanding community spirit that makes Estero unique. So, it's not a question of if this project can be accomplished, but how soon can it be done.

Every tax-deductible contribution you make will bring that day sooner when the three-quarter mile roadside borders of Estero High School will be among the most beautiful in our community.

Thank you for your continued support of this project. It's a joy to have such spirited efforts in Estero.

The pictures here only portray an artist concept of what could be and do not indicate what the end results will be.
