**Public Informational Session Summary and Design Review Comments**  
Estero Design Review Committee Meeting of Dec. 12, 2007  
Location: The Estero Recreation Center

Dear Applicant and County Staff:

The above referenced project was presented to the EDRC on Dec. 12, 2007 and has satisfied the public informational session as required per LDC, Sect.34-1042. The EDRC reviewed the submittal and discussed the design documents.

### **Discussion:**

- Although this is an exempt Federal project, the Applicant expressed a desire to be a good neighbor and solicit comments from the Estero community. The applicant actually made an initial presentation at the EDRC November meeting and returned at the December meeting to respond to comments previously made.
- The applicant stated that the roof will be changed from metal standing seam to barrel tile.

### **Comments:**

- The EDRC suggested using smooth split base veneer block and horizontal crown molding.
- Suggested that the entry could be painted stucco if it works with the flow of the other material.
- Recommendation was made that cutouts be provided at the entrance to allow for the addition of a couple of palms for height considerations.

The EDRC, on behalf of the citizens of Estero, would like to thank the applicant for the submittal and cooperation with the design review procedures.

Sincerely,

Thomas J. O'Dea  
Co-Chairman, Estero Design Review Committee
